

IoT Metering Family

CHNT

Empower the World

Provide diversified energy management solutions for scenarios such as buildings, intelligent power distribution, and new energy

Platform & Solutions

NIS6000

Integrated energy
service platform

NSS6000

Electrical safety
management platform

NPS6000

Smart Energy Settlement
& Billing Platform

NDS6000

Distribution Network
Monitoring Platform

Din Rail Meter

DDSU666

AC meter Din rail
meter for energy
monitor

DDSU666-G

AC meter For
distributed PV
application

DC Meter

DJZ666

Integrated type

DJZU666

Split- type

iDCM7

Integrated type

Panel Meter

PA/PZ666 PA/PZ7777

Ammeter/Voltmeter

PD666 PD7777

Multifunction Meter

Cluster Meter

DD/TSU666-IX series

SMJ666 series

IoT Gateway

SMG666
Smart Gateway

NES2000
Data collector

Sensors

NCTK

Split-core
current
transformer

FL-2

External
DC Shunt

NRC

Roche
Coils

Gas Metering Family

CHNT

Empower the World

Customization, High Precise of Measurement

Steel Type

Flexible for customizing

Aluminum Type

High anti-corrosion

Steel with Pulse Port

Easy to integrate with smart parts

Aluminum with Pulse Port

Different ports design

Water Metering Family

CHNT

Empower the World

The whole industrial chain digital water device, covering different scenario applications from smart metering to leakage control monitoring

Smart Remote Cold Water Meter

Exquisite appearance, accurate measurement

Ultrasonic Cold Water Meter

Drip metering, accurate and reliable

Electromagnetic Flowmeter

Magnetic circuit optimization design, accurate measurement

Noise-monitor

Flexible installation, accurate leakage control
